Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 1-3 and 6-8 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. In the newly amended claims 1-3 and 6-8, the applicant recites a plurality of elements and the functions of said elements, which were neither mentioned, described nor depicted in any portion of the specification as originally filed. Some of the elements that were not disclosed in any manner in the specification are:

- In claim 1, the adjustable flow control gate, the gate actuator for controlling the flow, the gate setting sensing means, and the utilization of the controller to control the gate setting based on output signals received from the gate sensing means.
- In claim 2, the recitations of the gate comprising a movable gate member that is movable to a plurality of positions.
- In claim 3, the recitation of a gate setting sensing means comprising a position sensor to sense the position of the gate.

- In claim 7, the recitation of the central processing unit utilizing a proportional integral algorithm to control the gate actuator.
- In claim 8, the recitation of the central processing unit using a closed loop control algorithm.

Double Patenting

3. A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

4. A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

5. Claims 1-3 and 6-8 are rejected under 35 U.S.C. 101 as claiming the same invention as that of claims 1-3 and 6-8 of U.S. Patent No. 6,427,718. This is a double patenting rejection.

Response to Arguments

6. Applicant's arguments filed October 7, 2002 have been fully considered but they are not persuasive. Applicants amendments raised new issues that made necessary the new art to be applied and therefore, the arguments presented against Combs et al. and Wissenbach et al. are said to be moot due to the new grounds of rejection. Based on the fact that the previously recited limitations that were introduced in the claims by the amendment filed on October 7, 2002 introduce new matter that was neither

disclosed nor depicted in the specification, said limitations will not be considered by the examiner for the purpose of examination.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).
8. A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
